That's an issue with the program code. I'll have ITSD fix it so you can enter those.

**Subject:** Client import issue

Hi Emily,

We can't seem to import clients into the new system that have already had the baby? It requires a future due date. We have a few ladies in the program that have recently given birth but are still A2A eligible that the new system won't accept. Any ideas?

Thank you,  
Laura
